REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present invention claimed is allowable because the English translation of the Japanese patent provided by the applicant shows that the prior art does not disclose the mixing of the resulting cathode water and anode water to obtain the detergent. The reference only recites the sequential treatment of the anode and cathode water in different tanks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
